

Allura Fiber Cement Corners By Westrend

Siding, Soffit & Trim Products

Westrend offers cutting-edge solutions for seamless installation and unmatched quality. We are excited to offer a primed one-piece Allura fiber cement outside corner. Expertly crafted to harmonize with our diverse product line.

Optimize your time and budget with this distinctive one-piece corner, resistant to seam separation, twisting, and warping.

Allura one-piece outside corners are available in both smooth and traditional woodgrain texture to suit any style. They also work well with any fibre cement siding.

AVAILABLE SIZES:

- 4/4x4x12'
- 5/4x4x12'
- 5/4x5x12'
- 5/4x3x12' Inside Corner

AVAILABLE TEXTURES:

- Smooth
- Traditional Woodgrain

IN PARTNERSHIP WITH:

PRIMARY ADVANTAGES:

- Seamless design serves as a barrier against water intrusion, preventing warping or seam separation.
- One-piece solution eliminates constructing corners on-site.
- Natural wood texture or smooth texture, primed and prepared for a topcoat in the colour of your preference.
- Custom pre-finished colours available.
- Allura products are non-combustible and have a Class A Fire rating.
