ALUZION
ALUMINUM ARCHITECTURAL SIDING

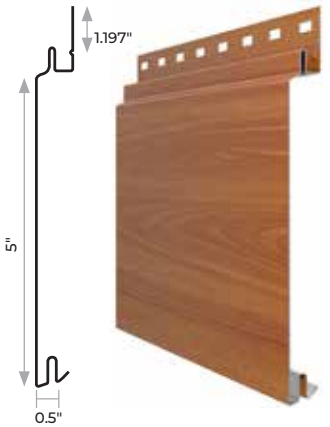

5" SMOOTH PLANK
MODERN SIMPLICITY. SEAMLESS STRENGTH.

ELEGANT
SUSTAINABLE
AFFORDABLE

Crafted from **0.032"** high-grade aluminum, our ALUZION siding combines durability, elegance, and performance. Paired with our patented INO-CLIP fastening system, they deliver enhanced resistance to harsh climates and — thanks to their rigidity and low weight — enable precise, effortless installation.

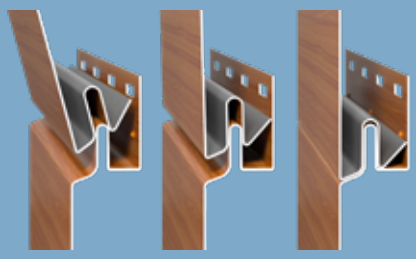

Available in a wide palette of rich finishes, the **5" Smooth Plank** siding adapts seamlessly to any architectural vision — from bold, modern statements to warm, traditional aesthetics. It offers a refined, contemporary look with crisp lines and harmonious sophistication.

MOLDINGS

We offer a full range of matching trims and accessories to streamline on-site installation.

We also supply 24" × 15 m aluminum coil, allowing you to fabricate custom moldings and complete your project with precision.

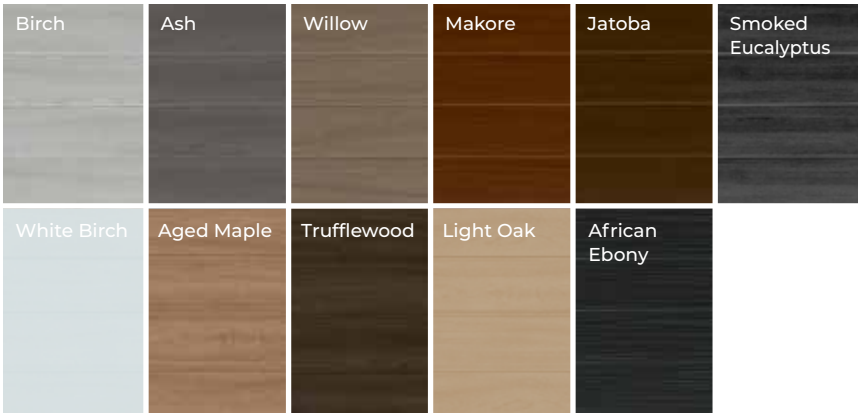

INSTALLATION

ALUZION siding is designed for vertical, horizontal, and diagonal applications, giving you full creative freedom. Select woodgrain finishes are available in Multi-Tone variations which are identified by numbers on the back of each siding panels. For the most harmonious look, we recommend mixing tone and wood-grain variations during installation to ensure a naturally balanced result. For safe handling, always lift boxes from both ends. Follow the official installation guide to ensure optimal performance and maintain your warranty coverage.
